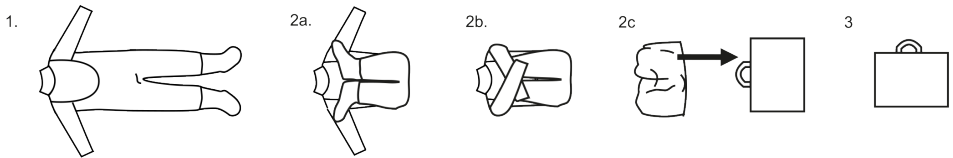

Fig. 3

PS4043 - Pilot Suit

1. DONNING

See figure 1.

1. Remove footwear.
2. Don the lining.
3. Don the suit like an ordinary coverall.
4. Pull the neck seal over your head. Zip the front zipper.
5. Squat down to exhaust air.
6. Don the lifejacket.
7. Before immersion, don the hood and gloves. NB: The hood is placed in the right leg pocket. The gloves are placed in the sleeve pocket.

2. MAINTENANCE

After use

Hang the suit on a wide hanger and allow to air.

We recommend to rub a suited lubricant on the zipper. Put talc powder on the inside of the wrist and neck seals to reduce sticking.

3. PACKING

See figure 2.

1. Place the suit flat on a clean surface. Unzip.
 - 2a. Fold up the socks to the crotch.
 - 2b. Fold the legs up over the socks.
 - 2c. Fold the sleeves across the chest.
3. Place the suit into the bag.

4. CLEANING

See figure 3.

5. INSPECTION, SERVICE AND REPAIR

We recommend that the suit is inspected at an approved servicing station once a year. Repairs should be carried out by an approved servicing station.

6. SPECIAL CONDITIONS

Store the suit in a dark and dry place in room temperature.
